FROM MANUFACTURE'S RECORD.

DO YOU KNOW THAT

The South's agricultural productions now exceed the total value of the agricultural output of the United States in 1880, and are almost as great in value as the total of the United States 1890?

DO YOU KNOW THAT

The South is mining more than twice as much bituminous coal as the United States mined in 1880?

DO YOU KNOW THAT

Southern railroads must spend \$2,000,000,000 in ten years to provide facilities needed in Southern growth?

DO YOU KNOW THAT

The most comprehensive and remarkable warehousing system in the world is in operation in a Southern town?

DO YOU KNOW THAT

The South is building two of the most remarkable railroads ever constructed in America, and that one of them is the most unique ever built in the world?

DO YOU KNOW THAT

South is now spending \$20,000,000 in building cotton mills.

DO YOU KNOW THAT

The Steel Corporations having \$50,000,000 invested in Alabama is carrying out vast improvements which will add immensely to the prosperity of the whole South?

DO YOU KNOW THAT

Good roads, which means more for agricultural prosperity than anything else before the public, are being built all over the South as never before at a cost of many millions of dollars?

DO YOU KNOW THAT

All of the present development of the railroad and industrial work in the South is only the revival of what was done prior to 1860 on a relatively still large scale which shows the inborn trait of Southern people to turn industrial interests?

DO YOU KNOW THAT

The South lost by emigration between 1865 and 1900 about 2,500,000 of its own white people, and that was a far greater loss than the ruin and destruction by war?

DO YOU KNOW THAT

That this drain has largely stopped, and that Southern men and boys are now finding more avenues of employment at home than elsewhere?

DO YOU KNOW THAT

The tide of investment of American and foreign capital and the movement of population is turning southward as never before, and that wonderful things are in store for this section?

DO YOU KNOW THAT

The biggest immigration movement in the country's history is going on in Texas, where about 200,000 people a year are settling, coming in from the north and West, and that this movement of population is tending to other Southern States as well as Texas?

DO YOU KNOW THAT

Through the value of the South's cotton crop with seed is between \$700,000,000 and \$800,000,000 a year, that value is less than a third of the total value of the South's annual agricultural production?

DO YOU KNOW THAT

With a population by 3,000,000, 000 or 4,000,000,000 than what the total population of the United was in 1860, the wealth of the South is \$5,000,000,000 greater than the total wealth of the whole country in 1860?

DO YOU KNOW THAT

You would have known all these things and a thousand more which effect the life of the south if you had read the Manufacture's Record during the last twelve months? But you will learn still more if you will learn still more if you read it during the next twelve. It is the final authority on all information about the South and its resources.

Morality in Schools.

Without morality the citizenship and the State would be far below par in the scale of civilization. To be moral is to be civilized. An examination of the word "moral" will at once convince us, that to be moral, is to be on par excellence with the best of mankind.

The State of Kentucky has enacted into a law. The teacher shall be of exceptionally moral character. What for? Evidently because the moral weight of the teacher's influence is greater or should be greater than any other elements to come into the child's mind or life.

But this moral instruction is not brought about by the teachers altogether, but by a silent working out of the life force fastened by, now and then a word dropped aptly when the lesson so touches upon this important element of character building.

Then to, there is such a thing as over-doing this important part of child life. To the alert and judicious teachers' ways and means will suggest themselves, from numberless sources.

From story from incident in every day and school life, occur such as will impress an idea upon the mind that will last through life.

How important then should the idea be wholesome and elevating

A good way to give moral instructions is by a moral life. This, the law has made emphatic. No hazardous life should in the capacity of the teacher warp the child's life.

A due sense of this responsibility will at once arouse the teacher to his or her best ability. But in the school room best every where. The very conception and its responsibility will have a dull effect.

While working silently but ceaselessly upon the crude material of childhood, the very life of the teacher will become nobler and better.

Very truly yours,
J. C. HARDIN.

Gone to Rest.

On July 6, 1908, Henry Summers and wife, of Repton, were made to rejoice at the dawn of a bright star in their home, a baby boy, Henry Curtis Ethridge Summers, to love and to be loved, only a short time, when the death angel called for the youngest and tenderest of our home. We had learned to love him dearly and our hearts yearned for his recovery. Such was not the case.

On Sunday evening, Oct. 17 at 6:15 p. m., the shadow of death stole into our home and took our little darling boy to live with the angels of God.

He was sick just a few days with congestion of the stomach and bowels. He bore the pains like a little hero, and closed his eyes in peaceful slumber to awake in the bright world beyond. We can see him by faith, a bright and perfect star, an angel with beckoning hands, a guide to our pathway to the glory land beyond.

The father and mother are members of the Repton Baptist church, and by faith and the help of God they expect to meet their little boy in Heaven, the city of God not made with hands.

A FRIEND.

Card of Thanks.

I wish to extend my sincere thanks to my dear friends and neighbors for their kindness and sympathy during the last illness of my beloved wife.

AL EASLEY.

Obituary.

Mrs. L. A. Easley died at her home in the Hebron neighborhood Monday Oct. 18, after an illness of seven weeks.

While death was expected, yet it came as a shock to her husband and family and friends. She bore her suffering with patience. Everything possible was done to restore health but to no avail. Though having no fear of death, she was anxious to get well and was grieved to part with her husband and to leave her little children without a mother's love and care. The presence of many friends with tender sympathy and love reminded us that she numbered her friends by the score. She was loved by all and will be missed in the neighborhood as well as in the home circle. She has gone to her reward and we hope some day to meet dear Lucy where there is no more sadness or parting, where all tears are wiped away.

Mrs. Easley before her marriage was Miss Lucy Woody, daughter of Mr. and Mrs. Alexander Woody. She was born March 30, 1875 and was married to Mr. Al Easley, Oct. 12, 1898. She leaves a husband, four children, a mother and eight brothers to mourn their loss. She was laid to rest on the Tuesday following, in the presence of many friends, in Mt. Zion cemetery, Rev. R. C. Love conducting the services. A vacant place is in our home, A mother's voice is stilled; Grim death has left an aching void That never can be filled.

Stops Lameness

Much of the chronic lameness in horses is due to neglect.

See that your horse is not allowed to go lame. Keep Sloan's Liniment on hand and apply at the first sign of stiffness. It's wonderfully penetrating—goes right to the spot—relieves the soreness—limbers up the joints and makes the muscles elastic and pliant.

Here's the Proof.

Mr. G. T. Roberts of Resaca, Ga., R.F.D. No. 1, Box 43, writes:—"I have used your Liniment on a horse for swiney and effected a thorough cure. I also removed a spavin on a mule. This spavin was as large as a guinea egg. In my estimation the best remedy for lameness and soreness is

Sloan's Liniment

Mr. H. M. Gibbs, of Lawrence, Kans., R.F.D. No. 3, writes:—"Your Liniment is the best that I have ever used. I have a mare with an abscess on her neck and one on her leg. Sloan's Liniment cured her. I keep it around all the time for galls and small swellings and for everything about the stock."

Sloan's Liniment will kill a spavin, curb or splint, reduce wind puffs and swollen joints, and is a sure and speedy remedy for fistula, swiney, founder and thrush.

Price 50c. and \$1.00 Sloan's Liniment on horses, cattle, sheep and poultry sent free. Address

Dr. Earl S. Sloan, Boston, Mass., U. S. A.
